SYMBOLS

- Superimposed Passages — upper passage dotted (differs from C.R.G. standard symbol owing to special nature of survey
- Passage normally traversed by stream (arrow shows direction of flow)
- Passage normally dry
- Unsurveyed passage (many not shown).
- Direction of underground water flow as determined by colour tests.
- Surface stream beds (uncoloured where not normally traversed by stream).
- Principle contours (approx).
- 1044 Spot levels (O.S. datum)
